LEARN WITH THE INNOVATORS

- > There will be opportunities to collaborate with Industry and partake in fashion events and summer workshops in Paris.
- > Students will learn all the essential skills and techniques as well as gaining a comprehensive understanding of an international fashion industry.
- > In the final year students will design and make a collection they will research, design and develop a fully realised collection that shows their aesthetic and creative vision.
- > If you choose you have an opportunity to complete your final year in **Paris at the MOD'ART campus.**

YEAR ONE

In the first year you will cover a broad range of subjects both theoretical and practical skills are necessary for a comprehensive overview of the fashion industry at an international level. Using both traditional and leading edge technology you will produce ideas related to garments or accessories.
